

MFB FARM Crate and FARM Science Lab/Van Information

FARM Crates

Description

This educational subscription provides classroom content with videos from real Michigan farmers. Crates are available for two age groups – K-2nd grade or 3rd-5th grade students. Each classroom will receive four agricultural themed lesson plans, including life science, geography, and social studies.

Since lesson plans are grouped between age ranges, it is recommended to purchase FARM Crates for all classrooms in a single grade, either from the K-2nd group or the 3rd-5th group, or one from each of the two groupings.

Estimated cost breakdown per classrooms served

- 100-200 students (or 3-5 classes): \$600
- 201-300 students (or 5-7 classes): \$840
- 301-400 students (or 7-9 classes): \$1,080
- 401-500 students (or 9-11 classes): \$1,320
- 501-600 students (or 11-13 classes): \$1,560
- 601-700 students (or 13-15 classes): \$1,800
- 701-800 students (or 15-17 classes): \$2,040

Order deadlines

- September – fall semester arrival
- January – winter semester arrival

FARM Science Lab

Description

This 40-foot mobile classroom comes equipped with the latest teaching technologies necessary to reach STEM-based agricultural lessons, provided by trained educators. Lessons are carefully crafted and tested by certified teachers and aligned with the Next Generation Science Standards and National Agricultural Literacy Outcomes. Schools can bring a farm field trip experience right to their backyard.

Please visit <https://miagclassroom.org/lab/requirements> to learn more about the FARM Science Lab requirements.

Pricing is determined based on the number of days the unit is reserved -

- 2 days: \$1,100
- 3 days: \$1,600
- 4 days: \$2,100
- 5 Days: \$2,600

FARM Science Van

Description

The FARM Science Van is a great solution to provide an agricultural field trip experience without even having to go outside. The van is used to transport all necessary materials to each FARM Science Lab lessons, but in the classroom instead, with a trained educator. This is great solution for schools in the area who do not have space for a FARM Science Lab to still get the experience and education from Michigan farmers.

Please visit <https://miagclassroom.org/van/reserve> to learn more about the FARM Science Van requirements.

Pricing is determined based on the number of days the van is reserved -

- 1 day: \$375
- 2 days: \$750
- 3 days: \$1,125
- 4 days: \$1,500
- 5 Days: \$1,875

I want to bring one of these programs to my school/district. Who do I work with?

Please contact Michelle Blodgett at mblodge@michfb.com. **Please connect with Michelle before submitting an Agents for Change application to verify availability and upcoming programming, as to not replicate efforts.**
